

## Precision Washi Masking Tape

Precise edges and longer application time

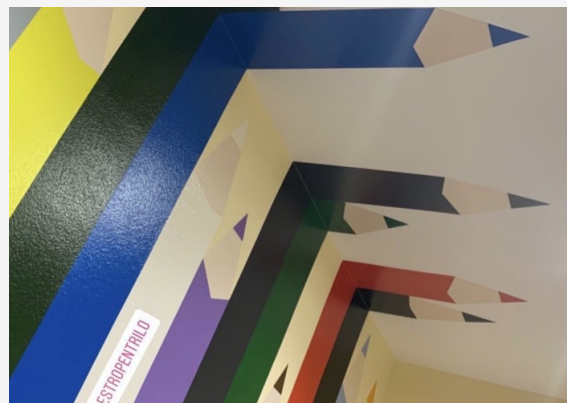

The ideal tape to achieve professional edges.

Its properties will help you achieve the most precise lines, and you can leave it in place for a longer period of time with no problems.

### Precise cut-ins

Get razor-sharp edges thanks to the compaction of the 92-micron Japanese rice paper.

### Versatile adhesiveness

The medium tack makes it multi-purpose, suitable for all types of smooth surfaces.

### **Longer application period with no risk**

Up to 180 days indoors and 90 days outdoors without leaving any residue.

### **Temperature does not pose a risk.**

Maximum temperature 120°C

### **Products table**

<b>ref.</b>	<b>measurement</b>
