

## Bi-Material Stainless Steel Flex Stucco Trowel

Extremely flexible trowel

The extra flexibility thanks to the 0.4 mm blade makes this the ideal trowel for top coats.

A great choice for stuccos and micro-cements

INOX

### Precise flexibility

The flexibility of the 0.4 mm stainless steel blade allows for increased sensitivity in application.

### Trapeze-shaped blade, lighter movements

The trapezoidal blade allows for lighter movements.

### Anti-mark rounded tips

The rounded tips make sure you don't leave any accidental marks on the walls.

### Comfortable and light handle

The design of its polycarbonate and elastomer handle and the trapezoidal blade allow for lighter movements.

## Products table

ref.	measurement
13103	240 x 110 mm
13102	280 x 120 mm
