

Microblanc Trowel

Ideal for white micro-cements and stuccos

With two rounded edges and a pleasant bi-material handle, you'll be able to move it in any direction comfortably, effortlessly gliding the plaster and letting your creativity flow. The special mirror-polished alloy means you can apply pressure and polish without worrying about burn marks on white micro-cements and stuccos.

INOX

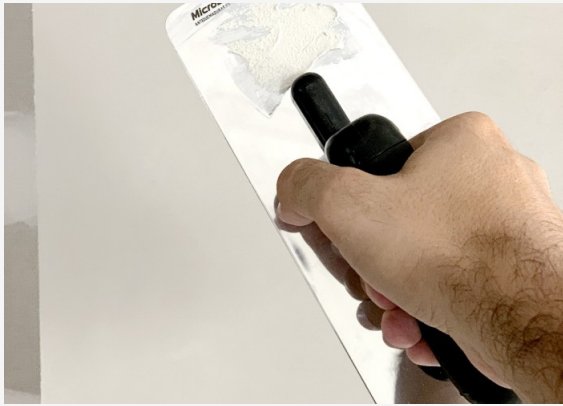

ANTI-BURN

The chemically modified steel effectively dissipates heat to avoid burning white surfaces.

GREATER FLUIDITY

The special treatment applied to the blade makes your movements more fluid when you're working.

LIGHTER

The composition of the ABS skeleton reduces the weight and fatigue, without compromising on durability.

HIGH-QUALITY DETAILS

Rounded and bevelled edges for a more precise finish.
